## 4. First Aid Measures

### EMERGENCY OVERVIEW

#### WARNING:

The following procedures are recommended as emergency first aid only. They are not intended to replace or supplant the treatment advice of a physician or other authorized health care specialist.

**EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice.

**SKIN:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for further treatment advice.

#### INHALATION:

Move person to fresh air. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Chlorine dioxide vapors are emitted when this product contacts acids or chlorine. If these vapors are inhaled, move person into fresh air. If not breathing, give artificial respiration. Consult a physician. Monitor patient closely for delayed development of pulmonary edema, which may occur up to 48-72 hours post inhalation.

#### INGESTION:

Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

## 5. Fire-Fighting Measures

### SUITABLE FIRE EXTINGUISHING MEDIA:

Water is the preferred extinguishing media when it is compatible with the burning substance. If water is not compatible, use dry powder extinguisher.

### SPECIFIC HAZARDS ARISING FROM THE CHEMICAL:

Burning will release hydrogen chloride gas (HCl) and oxides of sodium (NaOx).

### SPECIFIC FIRE-FIGHTING METHODS:

Substance does not burn but supports the combustion of flammable substances through the liberation of oxygen.

### SPECIAL PROTECTIVE EQUIPMENT FOR FIREFIGHTERS:

Firefighters should wear self-contained breathing apparatus (SCBA) if necessary.

## 6. Accidental Release Measures

**ENVIRONMENTAL PRECAUTIONS AND CLEAN-UP METHODS:** Spills may be flushed to a designated and permitted sewer system with the amount of water that is about 10 times the amount of the spill. Do not discharge this product to storm drains or to any surface or groundwater source unless specifically allowed under a valid NPDES permit.

## 7. Handling and Storage

### SAFE HANDLING:

Use product only as directed by the label. Avoid contact with skin and eyes; avoid breathing any vapors or fumes resulting from product activation. Wash thoroughly after handling. Thoroughly rinse all protective gear and handling equipment, such as transfer pumps and lines, with water prior to reuse or storage. Keep away from children, animals, and unauthorized personnel.

### SAFE STORAGE:

Store in a cool, dark area in original container. Do not contaminate water, food, or feed by storage or disposal. Do not reuse container.

## 8. Exposure Controls / Personal Protection

No Occupational Safety and Health Administration (OSHA) permissible exposure limit (PEL) or American Conference of Governmental Industrial Hygienists (ACGIH) threshold limit values (TLV) have been established for this product.

### ENGINEERING CONTROLS:

Open air or good room ventilation is normally adequate for safe use of this product.

### PERSONAL PROTECTIVE EQUIPMENT:
